

HAND-OPERATED TABLES

SOLTERRA TABLE

#11710-xxx

The Solterra treatment table is specifically designed for outdoor treatment spaces. It can withstand harsh conditions common to ocean-side resorts. Constructed from materials that are traditionally used for shipbuilding, such as penetrating epoxy on solid wood, stainless steel and HDPE, the Solterra is ready-to-sail. The cushion is easily removed to be stowage, prolonging its life. With all the comforts and features of a standard massage table, the Solterra provides versatility when operating in unique treatment locations.

STANDARD BASE COLOR:
